Claude Lawrenson  
Chair  
National Home Inspector Certification Council  
P.O. Box 22028  
Windsor, ON  
N8N 5G6

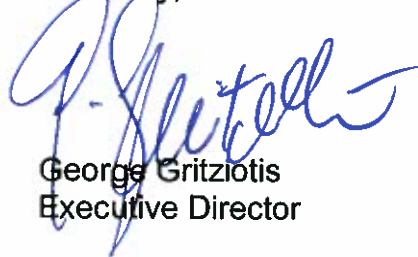

Dear Claude,

I am writing on behalf of the Construction Sector Council (CSC) to congratulate you on the formation of the National Home Inspector Certification Council (NHICC). We are encouraged that you are furthering the value of national certification to the public and the home inspectors.

As you know there was a great deal of time and expertise contributed to the development of the national certification and accreditation system and it was validated by the industry as a desirable approach to ensuring and maintaining a high standard of excellence amongst home inspectors. The resulting national certification and accreditation system was and remains available to the entire industry and we are pleased that the NHICC will be using this model going forward.

We look forward to continuing our relationship with the home inspectors and the NHICC.

Sincerely,

George Gritziotis  
Executive Director
